## PRESS RELEASE

# Interim report as at 31 March 2015 approved 

Net profit for the period of $€ 51.7$ million (+65.6\% yly), the best quarter since the end of 2012

Core revenues ${ }^{1}$ up by $0.8 \%$ on the fourth quarter of last year ( $-1.6 \%$ y/y) bolstered by growth in both net interest income and net commission income

Loan loss provisions down heavily to the lowest level for the last 10 quarters, confirming the start of a period of gradual normalisation of the cost of credit

## Coverage ratio of doubtful loans increased to 41.0\% and transfers to non-performing loans significantly down during the quarter

Capital position solid with a Fully Phased pro-forma CET1 ratio ${ }^{2}$ of 11.3\% (11.4\% Phased in) without considering the effects of the validation of internal models ${ }^{3}$

## The Fully Phased Basel 3 Leverage Ratio of 7.1\% (Phased in 7.2\%) among the best of the system with LCR and NSFR liquidity indices well over $100 \%{ }^{4}$

- Comparison of the main economic aggregates for the quarter with the fourth quarter of 2014 (quarter on quarter):
o The profit from current operations before tax amounts to Euro 78.9 million and compares with a loss in the last quarter of last year;
o Operating profit ${ }^{5}$ ( $€ 555$ million) up by $2.7 \%$ :
- net interest income up by $0.3 \%$ despite two calendar days less in the first quarter of 2015 with a slight improvement in the overall spread brought about by the decrease in the cost of funding which more than offset the declining yield on assets;
- net commission income up by $1.7 \%$ thanks to the continuing growth trend in asset management and "bancassurance" and stabilisation of the component linked to the traditional activity;
- net result from financial activities up by $22.3 \%$ thanks to the positive trend in financial markets with an additional increase in the valuation reserves on the securities portfolio;
o Operating costs ${ }^{6}$ well down ( $-7.7 \%$ ), both for payroll ( $-4.5 \%$ ) and for administrative expenses ( $-12.3 \%$ ), mainly attributable to the usual seasonality;
o Net loan adjustments down considerably on the previous quarter (-36.6\%). The cost of credit comes in at 34 bps for the quarter ( 53 bps in the fourth quarter of 2014).
- Comparison of the main economic aggregates for the quarter with the first quarter of $2014(\mathrm{y} / \mathrm{y})$ :
o The profit from current operations before tax amounts to $€ 78.9$ million (+51.9\%);
o Operating profit decreasing by 4.9\%:
- net interest income down by 4.8\% mainly due to a different market environment and level of interest rates;
- net commission income up by $4.5 \%$ thanks to the contribution of asset management and "bancassurance";
- lower contribution from the net result from financial activities (-27.2\%) influenced by the comparison with the first quarter of last year with a particularly positive performance in the
presence of a further significant increase in valuation reserves on the securities portfolio compared with the same period last year;
o Operating costs up slightly ( $+0.3 \%$ );
o Net loan adjustments down considerably (-30.4\%) with a cost of credit for the period of 34 bps (135 bps annualised).

The Board of Directors of Banca popolare dell'Emilia Romagna today reviewed and approved the separate results of the Bank and the consolidated results of the Group at 31 March 2015.

At the end of the Board meeting, Alessandro Vandelli, CEO of BPER, declared: "The first quarter of the year shows very positive results with a net profit for the period of over 50 million euros, an increase of more than $65 \%$ on the same period last year. I think I can say that the quarter just ended coincides with the start of a new phase with a return to higher profitability, accompanied by expectations of an improvement in the economic cycle and a gradual exit from the acute phase of the crisis. The first quarter shows some very positive factors such as the sharp fall in net adjustments to loans to the lowest level of the last 10 quarters, the strong performance on the part of core revenues, especially in terms of commissions, and the containment of operating costs. Moreover, in this context, the BPER Group confirms its solid capital base with a Fully Phased CET1 ratio of $11.3 \%$ and a leverage ratio of more than $7 \%$, among the best of the system, reflecting prudent and balanced management of assets and liabilities. To this we would add a satisfactory coverage of doubtful loans which in the quarter stood at 41\%, one of the best levels among our direct competitors. I am convinced that BPER Group will be able to return to adequate levels of profitability for the benefit of our members and shareholders".

## Income statement: key figures

Net interest income comes to $€ 314.1$ million, an improvement of $0.3 \%$ compared with the same period of 2014, even though there were two calendar days less in the quarter. The good result reached during the quarter shows a slight improvement in the overall spread which continued to benefit from the reduction in the cost of funding, which more than offset the decrease in asset yields brought about by the decline in volumes, the trend in market rates and lower returns on the securities portfolio The comparison with the same period last year shows a decrease in net interest income of $4.8 \%$, which should be considered in light of the significant changes in market conditions and interest rates (average quarterly yield to maturity of the 10-year BTP down from $3.6 \%$ in the first quarter of 2014 to $1.5 \%$ in the first quarter of 2015; average quarterly yield on the 3-month Euribor down from around 30 bps to 5 bps).

Net commission income amounts to $€ 179.2$ million, with a significant increase compared both with the previous quarter ( $+1.7 \%$ ) and with the same period last year ( $+4.5 \%$ ), mainly as a combined effect of a very positive trend in commissions earned on asset management and "bancassurance" ( $+21.2 \% \mathrm{q} / \mathrm{q} ;+33.2 \% \mathrm{y} / \mathrm{y}$ ) and the decrease in commissions earned on traditional business still affected by weak economic climate, although there is a substantial stability in the commissions on loans and guarantees compared with the last quarter of 2014 ( $-0.3 \%$ ), after six quarters of larger declines: This result could herald a phase of recovery in economic activity and related commission income over the coming months.

The net result from trading activities (including dividends of $€ 0.2$ million) amounts to $€ 46.3$ million, up 19.5\% from the previous quarter ( $-27.5 \%$ compared with the same period last year, though it was particularly positive), benefiting from a favourable performance in financial markets in the first months of the current year. This result was achieved with the help of net realised gains of $€ 30.7$ million, net capital gains of $€ 29.6$ million, for the most part attributable to the mark-to-market adjustment of the Italian government bonds held in portfolio and the negative
contribution of the fair value option on financial liabilities for $€ 6.5$ million (also negative for $€ 12.7$ million at 31 March 2014) with effects that by now are running out. The AFS reserve for government securities in portfolio continues to show significant gains for an amount (net of taxes) of $€ 147.6$ million ( $€ 97.9$ million at 31 December 2014 and € 85.9 million at 31 March 2014).

Operating profit ${ }^{7}$ comes to $€ 555$ million, up $2.7 \%$ on the previous quarter with growth in all of its components ($4.9 \% \mathrm{y} / \mathrm{y}$ ), particular in core revenues ( $0.8 \%$ ) represented by the sum of net interest income and net commission income and a good trend in the result from financial activities (+22.3\%).

Operating costs ${ }^{8}$ are down by $7.7 \%$ in the previous quarter, mainly due to the usual seasonal effects and substantially stable compared with the same period of 2014 ( $+0.3 \%$ ). In detail, payroll costs amount to $€ 199.3$ million ( $-4.5 \% \mathrm{q} / \mathrm{q},+1.3 \% \mathrm{y} / \mathrm{y}$ ), other administrative expenses to $€ 93.6$ million ( $-12.3 \% \mathrm{q} / \mathrm{q} ;-2.8 \% \mathrm{y} / \mathrm{y}$ ) and depreciation/amortisation to $€ 17.3$ million ( $-15.0 \% \mathrm{q} / \mathrm{q} ;+5.9 \% \mathrm{y} / \mathrm{y}$ ).

Net adjustments to loans and other financial assets amount to $€ 150$ million, down sharply compared with both the previous quarter ( $-44.0 \%$ ) and the first quarter of 2014 ( $-30.2 \%$ ), mainly related to adjustments made in the credit segment ( $€ 147.5$ million), which are the lowest for the last 10 quarters. The overall cost of credit at 31 March 2015 comes to 34 bps ( 135 bps annualised compared with 185 bps in 2014). Net adjustments to other financial assets amount to $€ 2.5$ million ( $€ 2.9$ million in the same period last year).

The level of coverage of non-performing loans (NPL) stands at 41.0\%, a slight increase on 40.7\% at end-2014. In detail, NPL coverage is $56.5 \%$, the same as at the end of last year. In addition, taking into account the direct write-offs of NPL still outstanding of $€ 1.3$ billion, total NPL coverage comes to $63.7 \%$. The coverage of likely defaults ${ }^{9}$ is showing significant growth to $19.2 \%$ compared with the pro-forma level at the end of 2014 (18.3\%). The coverage of overdue loans comes to $7.6 \%$ compared with $8.1 \%$ at 31 December 2014.

The profit from current activities before tax comes to € 78.9 million at 31 March 2015 ( $€ 52$ million in the first quarter of last year). Income taxes for the period amount to $€ 27.2$ million ( $€ 20.8$ million at 31 March 2014), with an effective tax rate of $34.5 \%$.

Total net profit for the period amounts to $€ 51.7$ million, compared with a positive result of $€ 31.2$ million in the same period last year ( $+65.6 \%$ ), including the profit for the period pertaining to minority interests of $€ 6.5$ million ( $€$ 2.9 million at 31 March 2014). The net profit pertaining to the parent company therefore comes amounted to $€$ 45.2 million ( $€ 28.3$ million at 31 March 2014), a significant increase of $59.9 \%$ compared with the same period last year.

## Balance sheet: key figures

Direct borrowing from customers (due to customers, debt securities in issue and financial liabilities designated at fair value through profit and loss) amounts to $€ 45.3$ billion, $1.9 \%$ down on the end of 2014 , mainly due to a decline in current accounts and demand deposits ( $€ 0.6$ billion; $-2.3 \%$ ), time deposits ( $€ 0.4$ billion; $-15 \%$ ) and the retail bond component ( $€ 0.7$ billion; -10.3\%) and the simultaneous reallocation of these items to asset management and insurance policies, favoured by good market momentum. Direct borrowing is made up principally of retail \& private deposits ( $81.5 \%$ ) and $64.8 \%$ is in the form of current accounts, demand deposits and short-term restricted deposits.

Indirect customer deposits, marked to market, amount to $€ 30.1$ billion, a significant increase of $6.9 \%$ on the start of the year. In particular, assets under management are up by $10.1 \%$ on the end of 2014 , recording a net inflow of $€ 0.8$ billion in the quarter, much higher than the same period last year ( $€ 0.3$ billion); ${ }^{10}$ assets under administration in the same period are showing a smaller increase of $4.1 \%$, mainly due to the higher valuation of customer securities on deposit. The insurance policy portfolio, which is not included in indirect borrowing, comes to € 3.4
billion, a substantial increase since the start of the year (+12.2\%), almost entirely for life insurance.
Loans to customers, net of impairment adjustments, amount to $€ 43.9$ billion, substantially stable compared with the end of 2014 (-0.1\%). A figure that is comforting for the prospect of a recovery in volumes, especially if we look at the figure prior to adjustments, which shows a slight increase (+0.1\%), after eight consecutive quarters of decline, with a good performance on the part of mortgage loans. It is worth pointing out the continued positive trend in the residential mortgage segment, which posted a $43.5 \%$ increase in new loans over the same period last year.

Net doubtful loans come to $€ 6.6$ billion, $1 \%$ up on the end of 2014 , indicating a stabilisation of volumes overall. In detail, NPL amount to $€ 2.9$ billion ( $+1.7 \%$ on year-end) with coverage of $56.5 \%$, unlikely to pay ${ }^{11}$ to $€ 3.5$ billion ($0.3 \%$ on the end of 2014) with coverage of $19.2 \%$, up by more than 90 bps on year-end, and net past due loans of $€ 0.2$ billion ( $+13.2 \%$ on the end of last year) with coverage of $7.6 \%$. As we said previously, all of these items have good coverage levels, highlighting a total coverage ratio of $41.0 \%$, compared with $40.7 \%$ at the end of last year.

The net interbank position, which is negative for $€ 5.5$ billion compared with $€ 4.8$ billion at the end of 2014 , is the difference between amounts due from banks of $€ 1.3$ billion and amounts due to banks of $€ 6.8$ billion. At 31 March 2015, the total amount of refinancing with the European Central Bank amounts to $€ 3.3$ billion, including $€ 1.3$ billion of short-term loans and $€ 2$ billion from the new TLTRO (Targeted Longer Term Refinancing Operation) that matures in September 2018. Financial instruments eligible for use as collateral for refinancing transactions on the market amount to $€ 11.6$ billion, net of the haircut, of which $€ 4.4$ billion is available.

Financial assets amount in total to $€ 11.3$ billion, an increase of $9.7 \%$ on the end of 2014; they account for $18.6 \%$ of total assets. Debt securities represent $91.2 \%$ of the total portfolio and amount to $€ 10.3$ billion: of these, $€ 7$ billion relate to government securities (mostly represented by Italian government bonds) and $€ 2.7$ billion to banks and supranational entities.

Against assets available for sale (AFS) of $€ 7.6$ billion, there are positive valuation reserves for a total of $€ 272.6$ million, net of the related tax effect, which is the net result of positive reserves for debt securities, equities and UCITS of $€ 278.7$ million, less negative reserves of $€ 6.1$ million. Moreover, with regard to the portfolio of financial assets held to maturity (HTM) of $€ 2.5$ billion, the difference between their fair value and book value is positive, resulting in a gross implicit reserve of $€ 242.7$ million.

Total equity ("own funds") at 31 March 2015 amounts to $€ 5.6$ billion (+1.9\%), with minority interests of $€ 0.6$ billion. Consolidated shareholders' equity of the Group, including the result for the period, comes to $€ 5$ billion, $+2.1 \%$ since the end of 2014.

## Capital ratios

The capital ratios, still determined using the standardised approach for the requirements to cover credit ${ }^{12}$ and market risk, have been calculated on a pro-forma basis, including the share of profit allocable to equity realised at 31 March 2015 and the net effects accrued in the same period resulting from application of the fair value option, for a total of $€ 40.5$ million ( 10 bps ), as follows:

- Common Equity Tier 1 ratio ${ }^{13}$ ("phased in") of $11.43 \%$ ( $11.26 \%$ at 31 December 2014). This figure calculated on a "fully phased" basis comes to 11.28\%;
- Tier 1 ratio ("phased in") of 11.47\% (11.29\% at 31 December 2014);
- Own Funds ratio "phased in" of $12.26 \%$ (12.24\% at 31 December 2014).

The Group has a presence in 18 Regions of Italy with 1,273 branches, as well as the head office of BPER (Europe) International s.a. in Luxembourg.

The Group currently has 11,552 employees, a decrease of 41 in the quarter (11,593 at the end of 2014).

## Outlook for operations

In the first part of the year, the prospects of a gradual recovery in the Italian economy appear to be strengthening, accompanied by an economic situation that is improving slowly but surely. For the current year, the prospects in terms of profitability are expected to increase with a trend in loans to customers that is showing in slight recovery, which was already visible in the first quarter; this trend ought to accelerate during the rest of the year. The still very low level of market interest rates and the growing competitiveness of traditional banking activities will continue to exert pressure on margins should, however, be offset by the benefits expected from a further decline in the cost of funding, while a positive contribution to revenues should come from commissions which have already posted a satisfactory performance in the first quarter. 2015 is the first year of the Business Plan during which we will make the scheduled investments and the first non-recurring costs, which will produce benefits over the entire three-year period. The cost of credit is expected to be significantly better than in 2014.

Note that the consolidated interim report of the BPER Group at 31 March 2015 is unaudited. The document will be available at the head office, at Borsa Italiana S.p.a. and on the websites of the Bank and the Group (www.bper.it and www.gruppobper.it) as required by law.

To complete the information provided, we attach the consolidated balance sheet and income statement (split into quarters with comparative figures) at 31 March 2015, as well as a summary of the main indicators.

Modena, 12 May 2015

## Chief Executive Officer Alessandro Vandelli

The Manager responsible for preparing the Company's financial reports, Emilio Annovi, declares in accordance with art. 154-bis, para. 2, of D.Lgs. 58/1998 (Consolidated Finance Act) that the accounting information contained in this press release agrees with the books of account, accounting entries and supporting documentation.

Modena, 12 May 2015

(*) The comparative figures for the income statement are as at 31 March 2014, except for the ROE and the ROTE which are calculated on a yearly basis.

[^2]
[^0]:    ${ }^{1}$ Core revenues defined as the sum of net interest income and net commission income
    ${ }^{2}$ Common Equity Tier 1 ratio ("CET1"): calculated taking into account the share of profits attributable to equity earned during the first quarter of the year and the net effects accrued during the same period from application of the fair value option (total of $€ 40.5$ million). Fully Phased CET1 estimated according to the new Basel 3 regulations at January 2019.
    ${ }^{3}$ Pre-validation of the AIRB models with the European Central Bank and the Bank of Italy officially commenced at the end of January this year.
    ${ }_{5}^{4}$ The LCR index at 31 March 2015 stands at $117 \%$, whereas the NSFR index is estimated well over $100 \%$ (at 31 December 2014 it was $115 \%$ )
    5 "Operating profit" as shown in the attached reclassified income statement and represented by the sum of the following income statement captions: Net interest and other banking income and Other operating charges/income (caption 220) net of indirect taxes recovered from customers ( $€ 30.9$ million at 31 March 2015 , $€ 31.5$ million in the 4th quarter of 2014 and $€ 29.8$ million at 31 March 2014)
    6 "Operating costs" defined as reported in the attached reclassified income statement and represented by the sum of the following income statement captions: payroll costs (caption 180-a), other administrative expenses (caption 180-b) net of indirect taxes recovered from customers (see previous note), depreciation and amortisation (captions 200 and 210)
    ${ }^{7}$ See note 5
    ${ }^{8}$ See note 6
    ${ }^{9}$ With reference to the new supervisory rules that took effect on 1 January 2015, and in particular the 7th update of Bank of Italy Circular 272/2008, which redefined the categories of impaired financial assets known as "non-performing exposures", with the creation of a new category of probable defaults known as "unlikely to pay" and the elimination of watchlist and restructured loans.
    ${ }^{10}$ Net borrowing defined as inflows of new subscriptions during the period net of redemptions and calculated on the basis of management figures.
    ${ }^{11}$ See note 9
    12 See note 3
    ${ }^{13}$ See note 2

[^1]:    ' Tangible equity = total shareholders' equity net of intangible assets.
    ${ }^{2}$ Total tangible assets $=$ total assets net of intangible assets.
    ${ }^{3}$ The cost/income ratio has been calculated on the basis of the layout of the reclassified income statement (operating expenses/operating income); when calculated on the basis of the layouts provided by Circular no. 262 of the Bank of Italy the cost/income ratio is at 57.25\% (52.64\% at March 31, 2014).

[^2]:    ${ }^{4}$ Capital and liquidity ratios at 31 March 2015 have been calculated on a pro-forma basis, taking into account the share of profits attributable to equity earned during the first quarter of 2015 and the net effects accrued during the same period from application of the fair value option (a total of $€ 40.5$ million). On the other hand, they do not take into account the benefits of internal models (pre-validation of the AIRB models with the ECB and the Bank of Italy officially begun at the end of January 2015).
    ${ }^{5}$ Common Equity Tier 1 ratio (CET1 ratio) - Fully Phased, as stated in the previous paragraph, it is calculated on a pro-forma basis and estimated according to the new Basel 3 regulations at January 2019.
    ${ }^{6}$ The NSFR, not yet available, it is in any case estimated to exceed 100\%
    ${ }^{7}$ Core revenues $=$ net interest income + net commission income
